PROFILE

Dynamic Frontend Developer with hands-on experience at VictopiaLabs, specializing in React.js. Skilled in building reusable UI components, enhancing performance, and delivering seamless user experiences. Strong team collaborator with a track record of troubleshooting issues and developing high-quality, client-centric web applications.

WORK EXPERIENCE

Victopia Labs — Frontend Developer
Mar 2024 - Jul 2025

Developed Poornatha Unified Portal as a web application. Utilized React, Django, Azure, and PostgreSQL to develop robust applications.

- Created functionalities for session management, certificates, facilitators, and feedback workflows.
- Developed reusable UI components with React to enhance user experience.
- Implemented pre-commit hooks to ensure code quality.

Portfolio Variance Analysis – Client Project.
Implemented efficient solutions using React, Node.js, and MySQL.
- Developed frontend for portfolio tracking tool tailored to wealth management client.

Key Contributions:
- Created clean and responsive UI with React and Material-UI.
- Designed tables incorporating sorting, filtering, and color-coded variance indicators.
- Implemented Excel upload system with comprehensive error messaging.
- Enhanced client search with dropdown and autocomplete features.
- Coordinated loading states to optimize system performance.

Sharpened Mind Tech & Solutions. — Web Developer Intern
Jan - Mar 2024 (3 months)

- Supported maintenance of web applications with React.js and Tailwind CSS.
- Worked alongside senior developers to identify and fix frontend problems.
